VALENTINES LOVE!

St Valentine's Day is an annual festival to celebrate romantic love, friendship and admiration. Every year on 14 February people celebrate this day by sending messages of love and affection to partners, family and friends. Traditionally people will exchange cards and gifts as a way of showing their love for each other.

This year Valentine's Day is special because it is a leap year. Every fourth year, an extra day in the calendar re-synchronizes earthly time with cosmic time. This year, on February 29, a day is added to our calendar, creating Leap Year. In a curious, centuries-old custom,

ladies are traditionally given the opportunity to boldly, and legally, propose marriage in a Leap Year. This proposal will often take place on Valentine's Day. It is always nice to receive gifts and treats from a loved one whatever the time of year.

But God has a gift for each one of us that is available every day of the year, every year. God's love for all of us is greater than any earthly love. He has sent us a gift that far outweighs any gift that are loved ones can give us.

The bible tells us that God loves us so much that He gave His Son, His one and only Son, so that whoever believes in Him will have a whole and lasting life. This has got to be better than any Valentine's card or gift you may receive this Year. This free gift from God to everyone, the gift of love that brings new life to all who to are willing to accept it.
